To the Honorable the Judges of the Court of Quarter Sessions of Cambria County at April Sessions 1849

The undersigned citizens of Cambria and Carroll Townships a said county respectfully represent that at the last Court of Quarter Session for said County and State was granted by your Honors to review a Road leading from a point on the public Road leading from Edensburg to Milliam Gittens about twenty paces South of the North branch of Blackhorse Creek in Carroll Township thence to intersect the State Road from Edensburg to Hunsentown or near the house of Milliam Gittens in Cambria Township. The undersigned would respectfully yet earnestly remonstrate against the confirmation or allowance of said Road as reviewed as it would not meet the wants of the public, would be difficult and expensive to construct and it is believed a shorter Road from the same points can be made that will meet the wants of the people and will be easy to make - a part of the distance being already made and used as a private Road &c

The image is a high-contrast, black and white scan of a document page. It appears to be a technical drawing or a map, featuring a prominent diagonal line running from the bottom left towards the top right. Along this line, there are several markings and text fragments, including what looks like "1000", "1000", and "1000". To the right of the diagonal line, there are more markings, including "1000" and "1000". The overall image is very noisy and has a grainy texture, with many black specks and artifacts. The text is mostly illegible due to the high contrast and noise.
