Order to View

To supply and vacate a road in East Taylor Township, beginning at a point on the Mineral Point Road, distant 5880 feet from the Ebensburg Road and ending in the village of Mineral Point

In the Court of Quarter Sessions of the County of Cambria, Pa.

No. 4 December Session, 1920

Report of Viewers

To The Honorable Judges of the above mentioned Court:

We, the undersigned viewers appointed by the above Court to view the ground proposed for a new road to replace a part of the road from the village of Mineral Point toward the Ebensburg Road and determine if there is occasion for such change, respectfully report;

That we were duly sworn or affixed as members of the permanent board of viewers as shown by the records of the Court; that due public notice of the time and place of the meeting of the Viewers was given all interested parties by publication in the Johnstown Tribune and by hand bills posted on the premises at least ten days prior to the time of making saidvview, attached to this report are notices as published and posted aforesaid. That we met upon the premises according to the notices on the 10th day of March A.B. 1921 at ten o'clock A.M. and proceeded with the duties of our appointment. That after viewing the old road and the ground for the proposed new road, we were of the opinion that the old road is in a dangerous condition but that this road is the logical location for a road in respect to line and grade, also any change to the proposed road would produce a great cost due to the solid rock excavation and would increase the grade of the road. Estimates made from the plans and surveys show that it would be less expensive to cut into the rock cliff along the present road and thus make the present road safe by placing it on a solid foundation than to follow the proposed road which necessitates a very heavy cut over the top of the ridge in order to keep below a ten per cent grade. The present road is a flat grade.

We are of the opimion that the proposed change of roads in not economical and illogical as to both line and grade.

Therefore, we are of the opinion that the prayer of the petitioners should not be granted.

Witness our hands this 19 day of april A.D., 1921
